ABOUT US

Interested to know me!

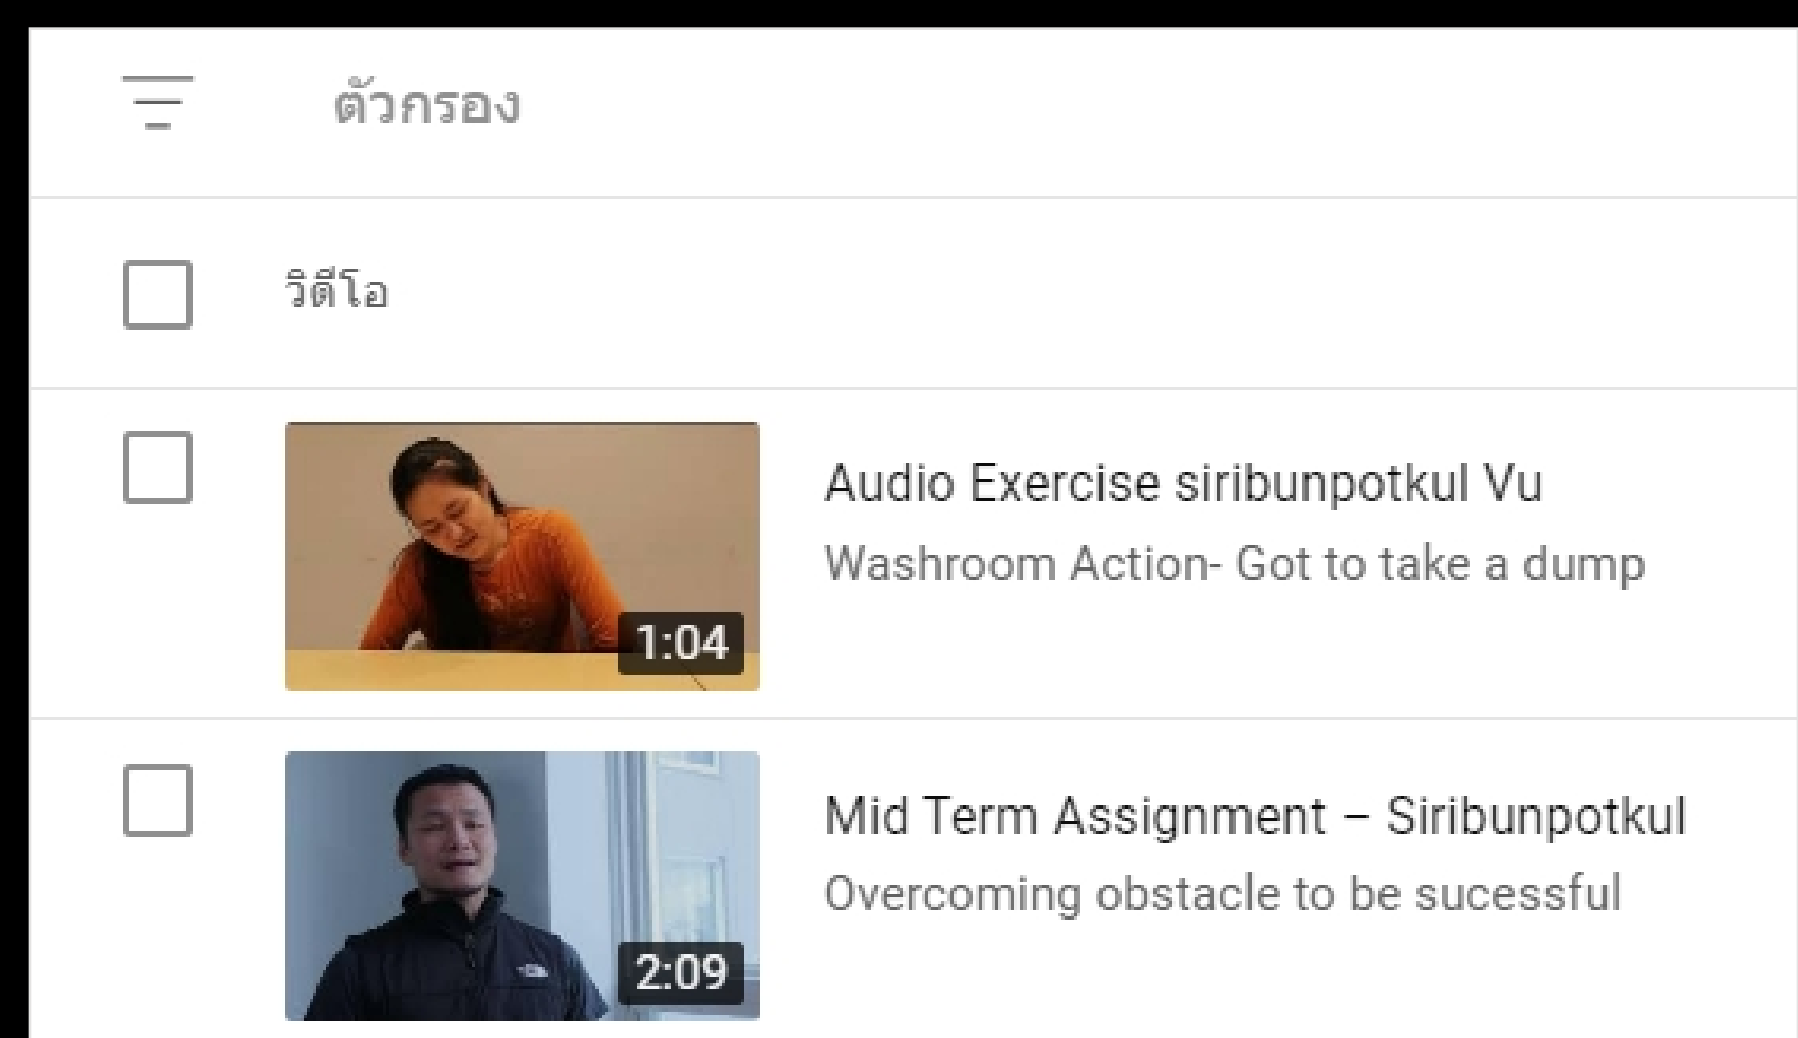

Who I am?

What is my mission?

My Background

I am originally from THAILAND and Algonquin College student majoring in Interactive Media Design Level 2, officially started on September 6th, 2022.

After I graduated from college, my goal was to get the best job and company in web design and digital media design. And I have skills in photo editing, lighting and other photography concepts that allow me to create visually appealing works of art as well. However, I have more than 5 years of experience in other areas of support, including community management and customer service.

WIRUNPUT SIRIBUNPOTKUL

My Mission

"I enjoy the challenge of finding unique ways to fulfill my own and my customers' need"
